

NEWSLETTER December 2011

Message from the LPS President:

Thank you to all members who attended the LPS Annual General Meeting. We formally presented last year's accounts, approved the 2010 AGM minutes and voted in next year's committee. See below for a fully list of the 2012 committee. A big thank you to all who volunteered for next year's committee, I am sure you will continue to make the society as vibrant and active as ever. Daniela Pfrang (VP Newsletter) and Dick Woodhouse (VP Past President) will be leaving their posts at the end of this year. Thank you for all your help over the last few years and please pop by to see us whenever you can. The AGM finished off with a talk from David Fishman of Fugro Robertson on 'Historical Oil Process and Forecasting'. David's excellent presentation can be viewed on the website.

The programme for the 'NMR Petrophysics' one day seminar on Thursday 15th December has been finalised. See this newsletter for the seminar poster and a registration form. Please get your registrations in to Ian Draper, ian.draper@bakerhughes.com, as soon as possible to reserve your place.

We will be holding our Christmas Party/President's Evening after the NMR seminar. The venue is round the corner from the Geological Society at The Clarence, 4 Dover Street, W1S 4LB, see this newsletter for a map. Baker Hughes and Schlumberger have very kindly agreed to sponsor the festivities which kick off at 6pm. All members and seminar attendees are welcome.

The first event of 2012 is already being planned. The annual New Technology seminar will be held on the afternoon of the 9th January at the Geological Society. The seminar is a chance for the service companies to show off their new tools and services. The event is free and both members and non-members are welcome.

This is my last newsletter as LPS President, I have really enjoyed my time in the post. Thank you to all the committee members for their hard work over the last two years and making the president's job so easy.

All the Best

Adam

Adam Moss: LPS President

The 2012 LPS Committee

- | | |
|-----------------------------------|--------------------------------|
| • President: | Mike Millar (BG) |
| • Past President: | Adam Moss (BG) |
| • Treasurer: | Paul Hoddinott (BG) |
| • Secretary: | Sasthene Parker (Senergy) |
| • VP Technology: | Iain Whyte (Tullow Oil) |
| • VP Technology: | Elizabeth Brown (BP) |
| • VP Seminars: | Ian Draper (Baker Hughes) |
| • VP Arrangements: | Ayham Ashqar (Perenco) |
| • VP Publications: | Ayham Ashqar (Perenco) |
| • VP Communications & Newsletter: | Rob Leveridge (Schlumberger) |
| • VP Membership: | Peter Fitch (Imperial College) |
| • VP External Relations: | Jeremy Farrow (Independent) |

Next Seminar and X-mas Party

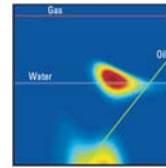

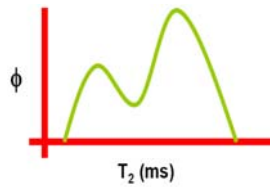

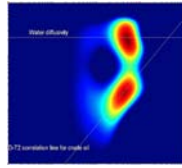

London Petrophysical Society

LPS President's Evening
The Clarence ,
4 Dover Street, W1S 4LB
Thursday, 15th December
6pm to late

The Event is free for all LPS
members and seminar participants!

This Event is Kindly
Sponsored by
Schlumberger and
Baker Hughes

'T-time and Relaxation'

The London Petrophysical Society announces a one day seminar on:

NMR Petrophysics

Thursday 15th December 2011 at the Geological Society, London

Provisional technical program:

NMR Measurements in Petrophysics. A Review of Last 20 years, the Future, and Beyond – *Simon Stromberg, Senergy*

NMR Rock Typing: Concepts and Preliminary Considerations – *Paul Basan, Corex*

2DNMR – Two Dimensional Fluid Characterization – Methodologies and Applications – *Sandeep Ramakrishna, Halliburton*

Reservoir Fluids Characterization Using Multi-Frequency NMR – *David Dangfa, Schlumberger*

Grain Size Determination from NMR T2 Data – *Edmund Smith, Baker Hughes*

How Do We Know the Inversion is Correct? – *Dan Coope, Consultant*

The Use of LWD NMR by BP in Angola – *Elizabeth Brown, BP*

NMR Viscosity & Permeability Estimations Compared to Other Methods Including MDT IFA (InSitu Fluid Analyser) and Ultimately Compare to PVT Analysis – *Nathalie Bordas-Lefloch, Tullow Oil*

Work Flow For the Calculation Of Drainage Capillary Pressure And Swi Estimation Using NMR T2 Relaxation – *Ayham Ashqar, Perenco*

A Novel Technique to Integrate NMR and Welltest Data in Complex Carbonates – *Clive Sirju, BG Group*

Registration Cost:

£150 for LPS/PESGB/AFES/SPE Members

£175 for Non-members (LPS is not VAT registered).

For more info or to register for this event please visit:
