

Congress Session ERE1.8 (@Vienna or Online)

Redeploying existing oil and gas technology to benefit the development of sustainable energy resources

We welcome abstracts that show the use of any technology that was initially developed for use in conventional oil and gas industries, and show it being applied to either sustainable energy developments or to CCS, subsurface waste disposal or water resources. **Call for abstracts open now till 10 January 2023.**

Convenors: Paul Glover (p.w.j.glover@leeds.ac.uk), Marina Facci, A. Pluymakers, T. Kempka
